Subject Fw: -- CONFIDENTIAL -- Meeting time with Cummins

Bill/Cle,

Cummins wants to meet with us and CARB to further discuss the status of their AECDs on November 29th. This time is acceptable to CISD - how about for you guys? See message below.

Todd & Ted,

Cummins wants to discuss OBD for their 6.7 liter diesel engine to be used in the heavy-duty version of the Dodge Ram pick-up truck. Since they are chassis certifying the vehicle, the light-duty OBD requirements apply. It would be great if you could attend the meeting - you won't need to stay for the entire meeting.

Linc-

I hope you received my previous email requesting a meeting time for Cummins to meet with the Agencies.

As my email indicated, we are planning to talk to about OBD certification related topics in our meeting.

I would appreciate your help in making sure the OBD certification person from EPA is available for this meeting as well.

I personally do not know who the EPA OBD certification will be for this certification.

Please let me know EPA availability and I will check with ARB to confirm the date and time.

Again,

Meeting Date: Nov 29, 2005 Tuesday

Time: 11 a.m. - 5 p.m. Ann Arbor time.

The Cummins team will be physically present at the EPA facility.
